

BEN WALTON

DEGREE GRADUATE // S. WALES

PROFILE

A recent graduate from Cardiff Metropolitan who specialises in Graphic Design. I have recently returned from a 2 month internship in Chengdu, China and want to start my next challenge. I am confident in a range of IT software and a quick problem solver. I am a team player with a broad range of skills with an eagerness to learn new things. My future plans are to work towards a middle-weight designer, while building upon my international relations and understanding of global consumeristic trends.

EXPERIENCE

Internship: Junior Graphic Designer The Buddy Creative / August - September

Selected for a 2 month internship based on my creative ability and outgoing personality. I worked within a small team on various projects from TEDx, Baehr and for the in-house cafe BuddySquare. I worked independently on small projects and managed a photography shoot for one of client projects.

Internship: Junior Graphic Designer Stills / July

During my time I re-branded the identity of Bae Coffi, a local coffee shop in Cardiff Bay. The concept visual identity was to encourage more students to use the facilities.

Freelance: Graphic Design Nina Leigh's No Nonsense Chutney / 2015

I was commissioned to design the packaging for a range of chutney products which had been kept within the clients family for generations. I created the brand identity of Nina Leigh's No Nonsense Chutney Relish.

Internship: Junior Graphic Designer Cardiff Metropolitan In-house Design Team / 2015

I was selected for a 2 week internship for the quality of work I produced at my second year exhibition at university. During this time I was given a small selection of briefs and worked alongside the creative team. I created a range of introductory cards which were used on university open days to give a brief overview of each course. I also worked on the Christmas Carol service flyer.

SKILLS

Analytical Thinking
Creative
Initiative
Problem Solving
Organisation
IT Literate
